

ADAM ROBINSON

Software Engineer

SUMMARY

Creative, detail-oriented, software engineer with a deep interest in reverse engineering. Proven track record of creating and implementing successful front and back-end web applications. Looking to bring my skills to a tech company with global reach.

WORK EXPERIENCE

Software Engineer at 100devs, Los Angeles, CA

January 2022 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full stack web applications
- Applied agile methodologies like SCRUM for project management

Recent Projects:

Ground Coffee Co (Fullstack Web App) – Cashier can take coffee orders from customers with their names. Baristas can login to the app and see orders that have been made, mark them as complete. Orders that have been completed will note which barista completed the order.

Study Better Notes (Fullstack Web App) – Users can login to their profile and find their list of notes. They can add new notes through an input, which they can then edit or delete all notes in their profile.

100Hours Project (Fullstack Web App) – Accelerated Results Fitness Tracker – Users can login, see their workout with multiple videos, record their workout, and add notes if needed

Other Projects: Cincinnati StarGazers APOD Web App with NASA API integration, On-demand background color changer for Partnered Twitch streamer, Styles Salon website built for a salon that offers high-end styling services. Clients can see what services are provided and book appointments, Inertia Wealth Management website is built for a financial planning group. Offering services from retirement, planning, employer-sponsored plans, and more
