# ADAM ROBINSON

Software Engineer

#### **SUMMARY**

Creative, detail-oriented software engineer with a deep interest in robotics. Proven track record of creating and implementing successful front and back-end web applications and looking to bring my skills to a tech company with global reach.

# **WORK EXPERIENCE**

## Software Engineer at 100devs, Los Angeles, CA

January 2022 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices for the entire life cycle, from idea to employment
- Built semantically structured full-stack web applications
- Applied agile methodologies like SCRUM for project management
- Participate in code review and pair programming
- Daily learning and practice with coding challenges through <u>CodeWars</u> (repo) and <u>LeetCode</u> (repo), along with participating in discord help channels to assist other engineers

#### **Recent Projects:**

Accelerated Results Fitness Cookbook - (Full-stack Web App) – Users can log in, see healthy recipes through different categories and types, favorite those recipes for easy viewing later, share, save, edit, and delete their recipes and add ingredients or individual items to a grocery list.

**Other Projects:** myPetPal (full-stack web App), Cincinnati Star Gazers APOD Web App with NASA API integration, Sunset Styles website built for a salon that is an on-trend full-service salon, Inertia Wealth Management website made for a financial planning group.
