ADAM ROBINSON

Software Engineer

SUMMARY

Creative, detail-oriented software engineer with a deep interest in reverse engineering. Proven track record of creating and implementing successful front and back-end web applications, and looking to bring my skills to a tech company with global reach.

WORK EXPERIENCE

Software Engineer at 100devs, Los Angeles, CA

January 2022 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full-stack web applications
- Applied agile methodologies like SCRUM for project management

Recent Projects:

Accelerated Results Fitness Cookbook - (Full-stack Web App) – Users can log in, see healthy recipes, and save their own recipes with edit and delete capabilities. Users can add ingredients to a grocery list, or individual items.

Pet Health Tracker (Full-stack Web App) – Users can log in and add items they need to do for their pets. From medications, walks, playtime, and appointments. Items can be edited, deleted, or marked complete as needed.

Other Projects: Cincinnati Star Gazers APOD Web App with NASA API integration, On-demand background color changer for Partnered Twitch streamer, Sunset Styles website built for a salon that is an on-trend full-service salon, Inertia Wealth Management website made for a financial planning group.

Full Stack Web Developer at Adam Robinson Consulting | Fairfield Township, OH

March 2019 — Present

Created full-stack web applications and static websites for different clients across small and medium-sized businesses. Also, consulted on SEO and social media strategy.

Client – Michael Riley
